You Save: \$4.00

Bioglan Micelle E is a water-soluble natural liquid vitamin E in micellised form for enhanced absorption. When used topically or orally Micelle E provides the body with valuable vitamin E that is beneficial to:

Scar reduction: Helps repair scars caused by surgery, accidents, burns or insect bites.

Wound Healing: May assist in the healing of minor wounds by encouraging growth in skin cells.

Stretch Marks: May help reduce the visibility of stretch marks and wrinkles.

Immune function: Vitamin E antioxidants assist in building a strong healthy immune system to protect you from illnesses such as cold and flu.

Healthy heart function: Can help protect LDL "bad cholesterol" from oxidation/free radical damage and helps increase HDL 'good cholesterol' to help maintain a normal healthy cardiovascular system.

Micelle E liquid can be taken orally or used directly on the skin. Micellised nutrients mix well with foods and drinks, particularly fruit juice and water for convenience. It may be beneficial for people who have difficulty swallowing tablets/capsules.

- 50ml

DOSAGE ADULTS: Take 1.0 - 3.0mL daily with a meal.

CHILDREN: Take 0.5mL daily with a meal. May be mixed with fruit juice.

CAUTIONS Store below 30°C. Do not use if tamper evident seal is broken. Contains Sodium Benzoate. Vitamin supplements should not replace a balanced diet. **FORMULATION** Each mL contains d-alpha Tocopheryl Acetate (Vitamin E) 115mg (156 IU) in a specially prepared water miscible form for enhanced absorption.
