Centrum Kids[®] is a chewable multivitamin supplement that provides children with more vitamins and minerals to help support growth and healthy development.

- 60 Tablets (Chewable)

Why Centrum Kids?

A balanced diet containing essential vitamins and minerals is important for the growth & development of your kids. That's why Centrum Kids is a complete multivitamin which is developed to give your child's body the right nutrients at the right levels, so their bodies can put Centrum to work in the way that is best for them. Centrum Kids is an ideal supplement for fussy eaters who might miss out on some important vitamins and minerals if their diet is inadequate.

Â Why Centrum Kids?

A balanced diet containing essential vitamins and minerals is important for the growth & development of your kids. That's why Centrum Kids is a complete multivitamin which is developed to give your child's body the right nutrients at the right levels, so their bodies can put Centrum to work in the way that is best for them. Centrum Kids is an ideal supplement for fussy eaters who might miss out on some important vitamins and minerals if their diet is inadequate.

How is it developed?

Centrum Kids is a complete & scientifically balanced multivitamin & mineral supplement containing 18 essential vitamins and minerals including Vitamin C to help maintain healthy teeth and gums. It provides the right combination of essential nutrients that children need every day to supplement any nutritional gaps and help ensure healthy growth, development & performance.

Why Centrum Kids?

Centrum Kids is a complete & scientifically balanced multivitamin & mineral supplement containing 18 essential vitamins and minerals including Vitamin C to help maintain healthy teeth and gums. It provides the right combination of essential nutrients that children need every day to supplement any nutritional gaps and help ensure healthy growth, development & performance.

Who is it for?

Centrum Kids is available as a great tasting strawberry flavoured chewable tablet for children aged 3-12 years.

Recommended Dietary Intakes (RDI™s) and Centrum Kids

Centrum Kids does not contain excessive levels of vitamins and minerals but is developed with levels close to the RDI™s as the role of a multivitamin is to supplement the diet, not replace it. Centrum Kids is ideal for filling nutritional gaps in their diet.
