## **Liquid Chlorophyll, Grants**

\$11.45

(RRP \$14.95)

type=input,subtype=TEXT,width=40,height=014.95

You Save: \$3.50

**Grants Liquid Chlorophyll** is made from alfalfa concentrate. Alfalfa is one of the most alkaline plants known. It is also one of the most complete and nutritionally rich of all foods. Alfalfa contains high potencies of most vitamins, minerals and trace minerals. It is high in protein and contains every essential amino acid. It also contains enzymes that enable food to be assimilated properly within the body.

**Grants Liquid Chlorophyll** helps provide oxygen for the acidophilus bacteria culture in the bowel.

**Grants Liquid Chlorophyll** helps cleanse the body tissues of impurities and toxins. The high percentage of iron in Grants Liquid Chlorophyll helps build red blood cell count and helps detoxify the liver.

**Grants Liquid Chlorophyll** is absorbed readily into the body, as it is similar in composition to human blood.

**Grants Liquid Chlorophyll** provides a balanced mineral and trace mineral supplement.

**Grants Liquid Chlorophyll** is a natural mouthwash and gargle, helping to eliminate bad breath.

- 500ml
