You Save: \$3.45

**Nutra-Zinc Zinc Chelate** is a high-potency Zinc formula on a complementary vitamin and mineral base. Zinc activates more than 100 diverse enzyme systems and is required for male health and wound healing. Protein synthesis, growth and insulin activity and the formation of healthy bones all depend on the presence of Zinc. It is important for prostate health, especially because as men age and their ability to absorb zinc declines.

Zinc acts in the utilisation of nitrogen and sulphur in the production of protein and the synthesis of DNA. Because both DNA and RNA require zinc-containing enzymes for production and function, Zinc is an important factor in the processes of cell division and growth. Insulin released from the pancreas is zinc dependent, and low levels of zinc have been noted in diabetics who also excrete the mineral faster than non-diabetics. Zinc reduces the formation of 5-alpha-reductase, the enzyme responsible for the conversion of testosterone to DiHydroTestosterone (DHT) involved in BPH (Benign Prostatic Hyperplasia), an enlargement of the gland associated with age in some men. Zinc is also involved in the release of Vitamin A from the liver stores.

- Required for male health and wound healing.
- Growth, insulin activity and the formation of healthy bones all depend on the presence of Zinc.

- 60 Capsules
- 120 Capsules

<b>Each Capsule Contains:</b>	Â
<b>Zinc (as Amino Acid Chelate)</b>	25mg
<b>Magnesium (as Oxide)</b>	40mg

<b>Retinyl Palmitate (Vitamin A)</b>	1500 IU
<b>Riboflavin (Vitamin B2)</b>	2mg
<b>Manganese (as Amino Acid Chelate)</b>	200ug
<b>Pyridoxine Hydrochloride</b>	25mg
<b>Equiv. Pyridoxine</b>	20.6mg

**Ingredients Contains no added:** sugar, starch, gluten, yeast, preservatives, artificial colours or flavours.

**Special Benefits** Each capsule provides 25mg of elemental Zinc from Zinc Amino Acid Chelate plus the support nutrients needed for absorption and utilisation in the body.

**Recommended Use ADULTS:** Take 1 capsule daily with the main meal.

**CHILDREN - 6-12 YEARS:** Take 1 capsule every second day or as directed by a healthcare professional.

#### **Directions**

Always read the label. Use only as directed. If symptoms persist see your doctor/healthcare professional.Â Â
