Nature's Way Mega B is a high potency B Complex formula designed for the prevention and treatment of Vitamin B deficiencies and is essential for healthy skin, shinier hair & clearer eyes.

Vitamin B deficiencies caused by a busy lifestyle, long working hours, too little sleep or too much smoking & drinking may mean your diet is not providing all your body's requirements of B group vitamins.

Mega B has been formulated to provide a high potency single tablet dose of B group vitamins.

Boost your energy levels with Mega B. Helps increase energy and combat stress.
